Education

VIT Bhopal University, BTech in Computer Science Engineering — Sep 2024 – May 2028

- CGPA: 8.64/10.0

Experience

Red Users, Cyber Intern – Remote — March 2026 – April 2026

- Working on cybersecurity tools and techniques such as penetration testing, reconnaissance, and exploitation methods to simulate real-world attacks and improve system security.

iOS Club (VITB), Developer Core Team Member — Dec 2025 – Present

- Developed a Flutter-based application for club events.
- Tools Used: Android Studio and Language Used: Flutter

Computer Society of India Of VIT Bhopal (CSI VITB), Design Core Team Member — Oct 2024 – Present

- Designed banners, posters, and standees for Sparks'24 and 2 online events, supporting events with 80+ participants.
- Created recruitment posters and social media creatives in collaboration with the design team using tools Canva, Figma.

Skills and Interests

Programming: Java, Python, C++, JavaScript

Cybersecurity Tools: Nmap, Wireshark, Kali Linux, Splunk SIEM

Security Domains: Network Reconnaissance, Penetration Testing Fundamentals, Vulnerability Assessment, Network Security

Cloud Security Fundamentals: AWS IAM, KMS, EC2, S3, CloudTrail, CloudWatch

Other Tools: Git, GitHub, Linux

Projects

Network Reconnaissance using Nmap (2026) — LINK

- Performed ethical network scanning to identify live hosts, open ports, services, and potential security vulnerabilities.
- **Tech used:** Nmap, Kali Linux, Networking Fundamentals

Sarkar Saathi – AI-Powered Government Scheme Platform (2026) — LINK

- Built a social impact platform to simplify access to government welfare schemes by providing AI-driven recommendations, eligibility checks, and multilingual assistance.
- **Tech used:** Next.js, React.js, Tailwind CSS, MongoDB, Node.js, Gemini API, JWT Authentication, Web Speech API

PaperNest – Smart Reading & Research Platform (2026) — LINK

- Developed a personalized platform integrating books, research papers, and news with secure authentication and library management features.
- **Tech used:** MongoDB, Express.js, React (Vite), Node.js, Tailwind CSS, Google Books API, JWT Authentication, Nodemailer

Certifications and Publications

ServiceNow Virtual Internship Program – ServiceNow University, AICTE & SmartBridge — May 2026

Cybersecurity Analyst Job Simulation – Tata Group (Forage) — May 2026

AWS Cloud Practitioner Essentials — October 2026

Achievements

Selected among the Top 45 Teams in Smart India Hackathon (SIH)

Selected among the Top 1,500 Participants in the BigCode Challenge

Got 211 global rank for Algoqueen
